## PRICE LIST SPRING 1922

The prices in this list cancel those in  
all previous lists.

MAY 27 1931

### GENERAL INDEX

Terms and Conditions	2
Deciduous Shrubs	28
Deciduous Trees	3
Evergreen Shrubs	23
Evergreen Trees	14
Fruit Trees	45
Perennials	47
Rhododendrons	25
Roses	43
Vines and Climbers	41
Index to Botanical Names	68
Index to Common Names	69

Long Distance Telephone, Rockland 26.

Telegraphic Address, North Abington, Mass.

### THE PLANTING SEASON

Transplanting can be done successfully as soon as the frost is out of the ground in the spring until early in June. Evergreens and herbaceous perennials can be successfully transplanted until the middle of June. We usually begin to dig about the 20th of March.

#### Directions for Shipping

Parties ordering are requested to state explicitly the mode of conveyance by which they desire their stock forwarded.

When no route is designated, we exercise our judgment; but in no case do we assume any responsibility after packages are shipped, unless for our own mistakes. When losses occur by detention, claims should at once be made on the TRANSPORTATION COMPANY by the consignee.

#### INSPECTOR'S CERTIFICATE ACCOMPANIES EVERY SHIPMENT.

#### CONDITIONS OF SALE

First—The articles herein listed will be furnished at prices designated as per following schedule:

1 to 5 plants of one kind will be charged for at the single rate, whatever the aggregate of a list made up in numbers of less than 5 plants of a specific sort may be.

5 to 40 plants of one kind will be furnished at the ten rate.

40 to 250 plants of one kind will be furnished at the hundred rate when hundred rates are given except in the case of perennials when 25 of one kind will be given the hundred rate.

250 plants and above of one kind are entitled to the thousand rate when a thousand rate is given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that it takes considerable time to assemble a list of plants that are scattered over the nursery.

Second—We give no warranty, expressed or implied, as to quality, description, productiveness, or any other matter of any nursery stock that we sell. No complaints will be considered that are not made within ten days after receipt of stock.

Third—The prices annexed do not include the boxes or bales. A charge for the actual cost of the boxes or the material used in baling is made. No charge for conveyance to freight station.

Our terms are cash, unless by special agreement. We can ship by express, C. O. D., when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. Said guarantee will be required only from parties with whom we have no business acquaintance. All bills remaining unpaid December 1st in Fall, and June 1st in Spring, will be subject to sight draft without further notice.

BAY STATE NURSERIES,

North Abington, Mass.

Packing House Adjoining Railroad Siding

## Ornamental Department

 NOTE — In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly; UNLESS OTHERWISE ADVISED.

A Partial View of Our Evergreens in the Nursery  
**MEDAL OF HONOR AWARDED US AT THE PANAMA-PACIFIC  
 EXPOSITION IN 1915 FOR EVERGREENS**

## EVERGREEN TREES

These Evergreens are all thrifty and heavily rooted, and have been several times transplanted. We have a number of large specimen Evergreens in variety not listed. They can be seen at the nursery when prices will be given. It will pay to see them if interested.

All Evergreens will be B & B (balled and burlapped), without extra charge. In the case of small trees several will be lifted with a ball and wrapped together in one bundle; all larger trees will be burlapped separately.

## RHODODENDRONS

Rhododendrons are one of our specialties. Our stock comprises many of the Hybrid varieties, all of which have been tested as to their merits for hardiness and beauty of flower; also the best of the Dwarf Alpine varieties.

The native Catawbiense and Maximum types we offer are all nursery grown, healthy and vigorous. We can, through our collector, furnish these types in collected plants of any quantity desired. Write giving sizes and quantities wanted, and we will make special quotations.

The prices of the various sizes of hardy Hybrid Rhododendrons except Boule de Neige are as follows:

	Each		Each
18 in. ....	\$3 50	3½ ft. ....	\$12 00
2 ft. ....	4 50	4 ft. ....	15 00
2½ ft. ....	6 00	4½ ft. ....	18 00
3 ft. ....	9 00	5 ft. ....	21 00

## RHODODENDRONS — HARDY HYBRID VARIETIES

If we have not in stock the size of a variety ordered, we shall select the same size of another variety which most closely resembles it in color — UNLESS OTHERWISE ADVISED.

We can furnish the following varieties in the various sizes, viz.:

<b>Abraham Lincoln</b> (Fine red)		<b>Caractacus</b> (Rich crimson)

Special quotations by the car load for collected plants.

See CONDITIONS OF SALE on page 2.

## DECIDUOUS SHRUBS

Our shrubs are grown with plenty of space in the nursery rows to insure good, vigorous growth, and they lift with strong roots; they are healthy and make quick development after planting.

Progressive Superb	2 50	20 00

## ASPARAGUS

1 yr. ....	1 25	10 00
Conover's, Giant Argenteuil, Palmetto.		

Full description will be found in our Handbook of General Information.

## CURRENTS and GOOSEBERRIES

On account of the "White Pine Blister-rust" which spreads from these plants to White Pines and other five-needled Pines, we have discontinued growing and selling Currants and Gooseberries.

See **CONDITIONS OF SALE** on page 2.

## Herbaceous Department

On account of the increasing popularity and demand for Herbaceous Perennials, our acreage has been extended from year to year, so that now this department alone covers about eighteen acres, with several greenhouses especially designed for propagating this class of plants. We are adding new and choice plants to our collection each year.

About all the plants we grow are strong field-grown; the only exceptions being a few species which transplant better by being grown in pots, also some of the choice new varieties.

## HARDY PERENNIALS, FERNS AND GRASSES

Full descriptions will be found in our Handbook of General Information.

Varieties marked with a star (★) are particularly adapted for the rock-garden.

See CONDITIONS OF SALE on page 2.

Remember that 25 perennials of one kind are entitled to the hundred rates whenever the hundred rate is given.

Peony .....	59, 60	Starwort .....	50		
Periwinkle .....	24, 66	St. John's Wort .....	33		

## A Word About Transportation

We can deliver your order by express, freight, or motor truck.

We have a siding at our packing house where we have every facility for handling car lots for long distances with promptness and efficiency.

We have several auto trucks which we use to deliver our stock and we can hire more when necessary. The auto truck has proved to be very satisfactory in the delivery of nursery stock.

First—Because within a range of one hundred miles from our nurseries, it can travel the distance so quickly that stock arrives as fresh as when taken from the nursery rows.

Secondly—Because the truck lands the stock on the grounds where it is to be planted, thus saving the bother and expense of trucking and unpacking.

Thirdly—Because it can be delivered at less expense than would be the boxing, freight and trucking charges if sent by freight in boxes, providing there is stock sufficient to make a respectable load for a truck.

The charges are made according to the distance travelled and the size of the truck used.

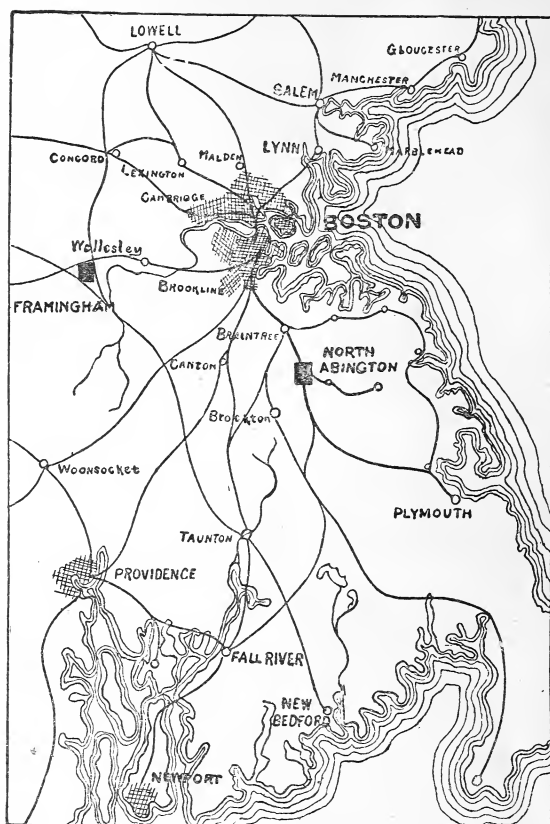

Remember that we are here to serve. Command and see how well we can execute your orders.

## Location of Nurseries

The Bay State Nurseries are located in North Abington, Mass., 18 miles South of Boston, on the Plymouth Division of the N. Y., N. H. & H. R. R.—half way from Boston to Plymouth. Trains leave the South Station at frequent intervals during the day. Visitors are always welcome. Our office is ten minutes' walk from the station. If notified, we gladly meet visitors at the station and take them about the nurseries.

To reach us from Boston by motor, go to Quincy, then proceed directly South through Weymouth and South Weymouth until you see our sign at the fork of a road, turn to the left and you cannot miss our office one-half mile farther on. We are just off the road which goes to Middleboro and the Cape.

We are NOT OPEN FOR BUSINESS ON SUNDAY.

Our Nurseries are located 18 miles south of Boston on the  
Plymouth Division of the N. Y., N. H. and H. Railroad.
